

# Bajaj Finserv Nifty Bank ETF

An open ended exchange traded fund  
tracking Nifty Bank Index

---

April 2026

# What are ETFs?

## 1 Broad Market Exposure

An ETF, or Exchange-Traded Fund, is like a basket of different investments that you can buy on the stock exchange. like buying a portion of many companies or assets all at once.

## 3 Simple

This lets you invest in a diversified basket of securities in a easy way without needing to buy each investment separately.

## 2 Consistent Strategy

Aims to replicate market returns of the Index, reducing the impact of short-term market fluctuations subject to tracking error.

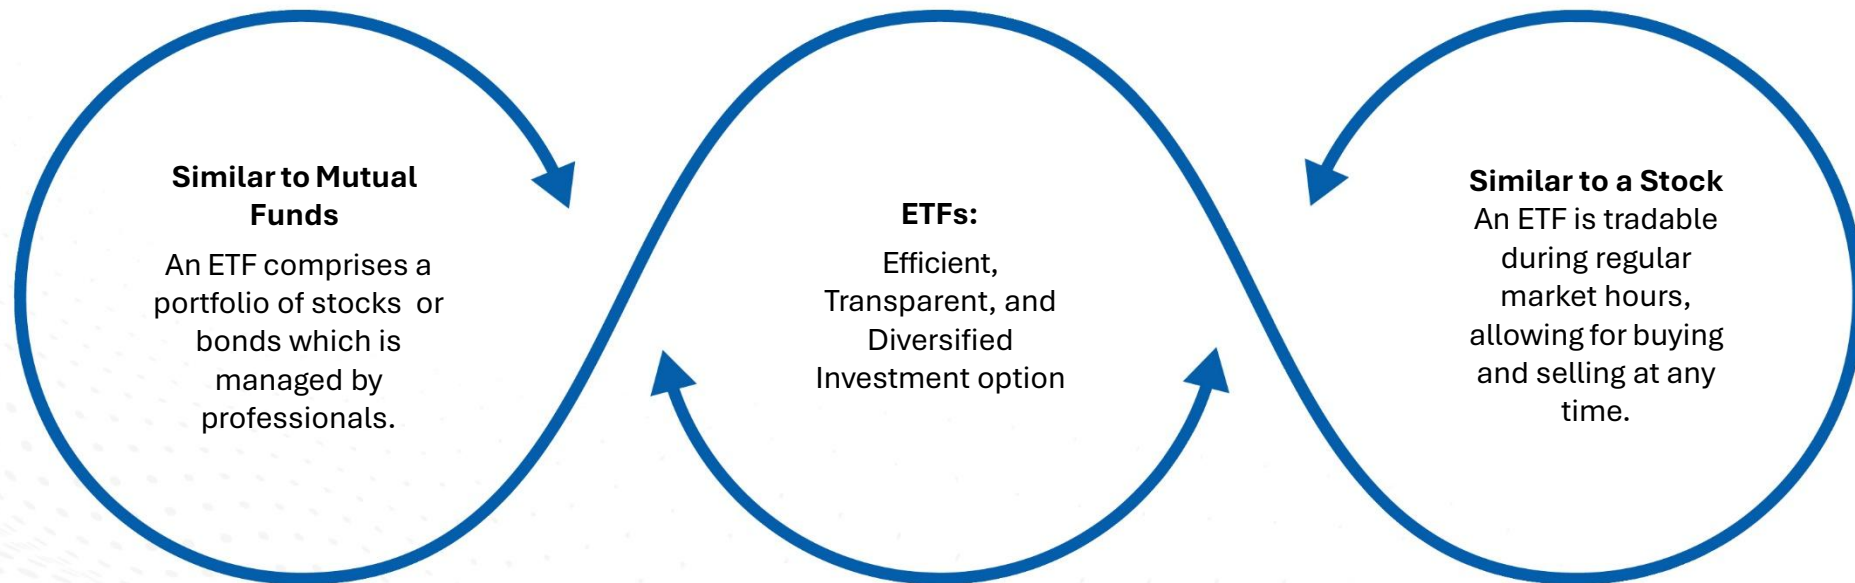

## 4 Lower Fees

ETFs generally have lower management fees compared to actively managed funds.

# ETFs: Ideal combination of Mutual Funds & Stocks

# ETFs: Difference between ETF & Active Fund

ETF	Active Funds
ETF NAV gets updated real time during the Market timings.	You can determine the market value only at the close of the day.
A Demat account is required for transactions.	No Demat account is needed for transactions.
You have the flexibility to purchase or sell units at any time, from any location, and with no restrictions on the frequency of transactions.	Transactions for buying or selling units are limited to once a day, specifically after the market closes.
You can execute buy or sell orders directly with the broker.	You can execute buy or sell orders directly with AMC or through distributors.
ETFs are more cost-effective because of their lower expense ratio.	Active Funds generally have higher expense ratio compared to ETFs

# Benefits of Investing in ETFs

## Key Drivers of ETF AUM growth:

The Employees Provident Funds Organization (EPFO) and other retirement trusts are required to invest in equities through ETFs.

The Bharat Bond ETF series is introduced to raise long-term debt capital through ETFs.

Central Public Sector Enterprise (CPSE) Bonds are issued through Issuer Driven ETFs.

**Innovative Products:**  
Introduction of innovative ETF products catering to specific themes or sectors has captured investor interest and driven growth.

**Passive Investing Trend:** The global trend towards passive investing has influenced Indian investors to consider ETFs, especially those tracking benchmark indices.

# Why to invest in Banking Sector

**Stability:** India's banking sector offers stability, attracting investors for consistent returns.

**Middle Class Growth:** The expanding middle class boosts demand for banking services, fostering growth.

**Government Support:** Initiatives like financial inclusion and digital banking support sector expansion.

**Tech Integration:** Increasing adoption of technology enhances operational efficiency and customer engagement.

**Regulatory Confidence:** Stringent regulations ensure transparency, reducing the risk of major financial crises.

**Diversified Services:** Banks offer a range of services beyond traditional banking, broadening investment opportunities.

**Credit Growth:** Economic expansion drives demand for credit, benefiting banks' lending activities.

**Global Presence:** Indian banks expanding globally enhance competitiveness on an international scale.
